Flow Visualization: The Physics and Art of Fluid Flow

Here is a list of flow facilities; equipment for checkout is listed below. Unless otherwise specified, most of this stuff is in my lab ECME 1B64, and I will check it out to you. I'll ask you to wipe it down when you return it.

ITLL equipment:

If you need technical help, you can make an appointment with ITLL staff:
<https://itll.colorado.edu/>

Large equipment like the flume won't be available until in-person classes resume.

Idea Forge: Shirley Chessman in the Idea Forge (east end of Fleming) also has a huge assortment of free parts for DIY setups; glassware, plexi, pumps, plumbing, fans etc..

FLOW FACILITIES: AIR

Facility	Lighting	Visualization	Phenomena	Access
Vortex ring generators; zeroblaster, or timed generator (needs a little work).	Try projector for light sheet, or strobe	Stage fog	Vortex rings, symmetric and asymmetric	JH Lab
Laser sheet/fog Desk toy	Built in rotating mirror and green laser pointer	Built-in stage fog generator	Turbulent jet cross section and room air turbulence/mixing	JH Lab

Medical nebulizer, ultrasonic humidifier	Strobe for volume vis	Dry ice vapor ¹ humidifiers, steaming pots, medical nebulizers (<\$5) ²	Jet flows, positive buoyancy convective flow	JH has nebulizers, humidifier, fog machines
--	-----------------------	---	--	---

¹ Dry ice is solid carbon dioxide. Do not seal into a container, let it breathe. Handle with extreme care; it can freeze flesh and displace breathable air. Cover with hot water for best effect, otherwise a water ice shell will form.

² Do not nebulize oils (i.e. canola) without use of a proper respirator or aerosol filter mask: oil coated lungs define pneumonia and asphyxiation.

		Fog generators		
2 small (4 inch diameter) schlieren systems for home checkout.	EG&G strobe, provided. Maybe works. Bright single LED headlight works well too.	Schlieren: Light bent by η gradients Could do stereo with 2 small systems	Convective flows from warm/hot objects: hands, candles, hair dryers (turbulent jet). You may need time to make your own color stops. Can be used in water too.	
Reuben's Tube	Flame	Flame length represents pressure.	Standing wave resonance in a pipe, excited by a loudspeaker on the end.	

FLOW FACILITIES: LIQUIDS

Facility	Lighting	Visualization	Phenomena	Access
Small water tunnel for checkout; 3' long, 2' deep	Includes water pump for circulation	Bubbles Dye, rheoscopic fluid, paint, anything safe for drains	Designed for object wakes	
Large Fish Tank. (50 gal)	Strobe or work lights	Food coloring. Be sure to bleach water clean afterwards	Short jets, vortex rings, boundary layers	
Small (10 gal) Fish Tanks, larger fish tank, pumps available too.	Strobe, laser sheets	Food coloring, alumina powder, cornstarch particles; anything you are willing to put down your own drain.	Short jets, vortex rings, boundary layers Steady vertical vortex (from stirring machine) Small ring generators available.	
Hele-Shaw cell	Work light or bounced strobe	Food coloring of detergent,	Saffman-Taylor instability	

		corn syrup, water, etc		
--	--	---------------------------	--	--

Glitter Tank 6 foot X 3 inch black PVC half tubes	LED or other worklights	Glitter (Pearl- Ex), Pearl Swirl or pearlescent shampoo	Wake and wave phenomena	JH. Would benefit from small recirc pump.
Fish Tank JH lab only (voltage source limitation)	Strobe, LED or work lights	Hydrogen Bubble apparatus	Any motion in salted water	JH. Extra training and work required
Liquid Desk Toys: lava lamp, vortex lamp, drip timers, sparkly fluid in balls, etc.		Built in	Various, including low- order turbulence, wakes, droplet motion	JH. An assortment of dynamic desk toys that have fluid motion.
Blackstock Rheoscopic Fluid cell	Has polarized light setup	Streaming birefringence	Cylinder wake	Prof. Hertzberg. Also have extra fluid available, but apparatus must be very clean; no salts.
Ferrofluid	Normal studio lighting	Move it with magnets. You need to supply magnets.	Magnetic field lines	JH. Bring small container. Impossible to clean up spills. Will stain anything. Nontoxic, though.
Glycerin				JH lab. Mix with soap solutions to extend soap film life
Droplet Splash System. Has excellent documentation	Has dedicated Nikon camera and strobes. Requires Android phone for synch app	Reflection and refraction of fluids	Worthington jets, crown splashes	JH

Small Equipment Checkout

Please note that this equipment may be either expensive, rare, or both. Students checking out equipment are expected to take responsibility for the equipment. If equipment is lost, stolen, or broken, there are no funds available for replacement or repair (no, CU has no insurance for this stuff).

Equipment	Location	Notes
Stage fog generator (cooled)	JH	Fog is nontoxic water-based glycol solution. Can leave residue, and may trigger smoke alarms in high concentrations.
Stage fog generator, (small)	JH	
Zero Blaster ring generator and fog fluid	JH	
Ultrasonic humidifier	JH	
	CAMERAS and LENSES	
Vision Research VR Micro C110 High speed video.	\$\$ Check out from ITLL Project Depo.	Mo.Woods@colorado.edu.
Olympus I-Speed high speed video system	ME Idea Forge. See Shirley Chessman	Training required. Up to 30,000 fps, but is low resolution, and low sensitivity; needs lots of light.
Canon extension tubes (for cheap lenses, no electronic pass thru)	JH	
Nikon extension tubes	JH	
Nikon 24 mm wide angle lens	JH	
Nikon 50 mm lens	JH	
Nikon macro lens 102 mm	JH	Manual only
Closeup Lenses: +1, 2, 4 in 58 mm dia, +2,+3 in 72 mm dia.	JH	
Stereo cameras (film) and slide bar	JH	

FLIR Infrared thermal imaging camera. For iPhones only		
	LIGHTING	
Dimmable Bi-color 660 LED Video Light (continuous) with Barndoor and 6.5 feet Light Stand,	ITLL has one, JH has two	
Godox VING V860IIN TTL Li-Ion Flash with X1T-C TTL Trigger Kit for Nikon	JH	Good for remote and multiple triggers
Godox VING V860IIC TTL Li-Ion Flash with X1T-C TTL Trigger Kit for Canon Cameras	JH	Good for remote and multiple triggers
Yongnuo YN560-IV Speedlite Flash with Manual and Slave Control"	JH	Can be triggered by flash on your camera
Umbrella reflectors	JH	2 on stands, one short/table mount. Comes with weak CFL lights
24" (60cm) 5-in-1 Disc Light Reflector with Bag -	JH	Translucent, Silver, Gold, White and Black
Sunpak Auto 383 Flash (strobe) unit & 25' pc cable	JH	
CW 1 watt blue LED laser	JH	Serious safety training required
Party strobe	JH	
500 W work lights, several sets	ITLL, JH	
Small LED worklight pair	JH	
North Star video lights (2), cooled	Idea Forge	
	MISC	
Gretag-Macbeth/X-Rite Eye-1 Spectrophotometer	See Prof. Hertzberg; on loan to Prof. Bruns	For color calibration of monitors, cameras, printers and projectors.
Large black backdrop (8 foot square), integral stand	Idea Forge	Lots of fun to fold back up.
Small white table-top tent, ~2 ft ³	Idea Forge	Provides diffuse white light and control of reflections
black velvet	JH	Small pieces
Assorted tripods	JH	

LP Turntable	JH	For study of rotating flows
